

Publications

Our reports provide clear information about how we run our business and the services we offer.

We publish an Annual Report every year every year. You can read our 2017 report below.

We also publish our financial statements every year. You can read our 2017 accounts below.

We are pleased to present our 2016-2018 Corporate Strategy. This pulls together our key objectives and explains what it is as a business we aim to achieve and the kinds of things we do to meet those aims. It also shows how those ambitions are linked to our values. The Strategy covers a two year period and is reviewed regularly; this is particularly important in the current operating environment when housing and care services are experiencing rapid

change. For any queries about the Corporate Strategy, please [contact us](#).
