

Better Together

From April 2017, all of the separate organisations that made up the Accord Group have come together to form a single business.

To ensure that we provide excellent customer service and that our services continue to offer value for money, we are now Accord.

We aim to be a great housing and care provider, delivering value at all times and providing excellent services. Our customers told us that they wanted to see:

- Consistency across services
- Improved communication
- A more responsive repairs service
- Simpler ways of getting things done.
